*B*EAUTY OVERLOOKING  
THE HARBOR

Janice Parker Landscape Design

Inviting green lawns mirror the focused simplicity of the planted landscape overlooking the harbor. The infinity-edge pool, which has a Caribbean Blue Pebble Tec® interior, flows into the sea, creating a dramatic yet natural setting. An array of log tables and chairs gives a rustic feel to the bluestone patio which features a recessed firepit. As the sun sets, the family gathers by the fire for a casual evening of story-telling and toasty treats.

Plantings with sculptural forms and tonal colors were used to define the compelling pool space. Identical rows of neatly pruned hedges border the Eramosa limestone patio surrounding the pool while mixed evergreens supply texture and height.

Neil Lorchino

ABOVE: A poolside loggia, comprised of a pergola framed by two stone structures, creates a domestic space for comfortable living outside. On the right, a fieldstone cabana provides a convenient area to change and features showers on the exterior wall. To the left, a stainless steel kitchen outfitted with a refrigerator, sink, and ample storage facilitates daily dining and formal gatherings. Strategic lighting establishes the atmosphere and defines the various dining areas within the pool structure. A limestone fireplace and cozy seating offer the final touch to this "interior" setting.

Janice Parker Landscape Design is a nationally recognized landscape architecture firm that was founded in 1984. Janice Parker, principal and licensed landscape architect, has established a reputation for conceiving, planning, and installing thoughtful landscapes that unite homeowners with their outdoor environment in a meaningful way. She is dedicated to providing excellent design, full documentation, and product coordination for every project.

From an intimate rooftop garden to an expansive several-acre estate to various terraces and multi-tiered landscapes, Janice Parker Landscape Design works

with any property formation. Parker's technical expertise and creative talent allow her to devise effective solutions for any challenge a site may pose. Creating beauty within the natural constraints of a site is the essence of an enduring landscape.

Developing long-term designs and strong relationships is important to Parker. She is committed to keeping the lines of communication open with her clients throughout the design process and engaging them in the project team. She takes careful attention to blend the architecture of a site and chosen design with her clients' needs to create a unique space that embodies their family life. ✦
